ZIP X

Gives you climate control in an outside space for all year round comfort.

Create an all year round outdoor living space with Zip X

- Developed to withstand South Africa's harsh weather conditions.
- Provides privacy, effective shade and protection from the elements.
- Engineered with smart technology for low maintenance and high durability.
- Sleek and compact colour matched cassette options to protect fabric and hardware components.
- 5 hardware colour options.

ZIP X is a side-retained product featuring a double spline that smoothly guides the screen into its side channel, ensuring efficient operation. Its streamlined side channels offer an uninterrupted view, maintaining structural integrity to support dimensions up to 5.3 meters in width and 3 meters in drop without needing posts (recommended maximum dimensions). The well-engineered bottom rail prevents bowing and deflection, ensuring durability and performance.

OPERATION

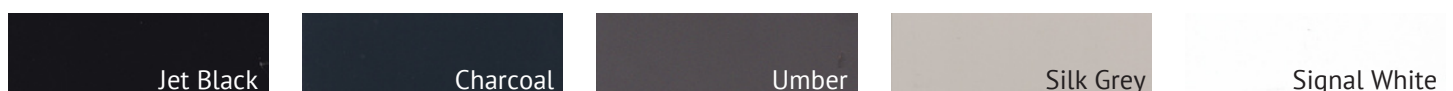

Operate your Zip X Blind using our unique central locking system which is a robust yet easy to operate mechanism, concealed in the bottom rail for a clean look and to protect working parts from the elements.

Alternatively select motorization, controlled via remote device, mobile phone or voice activation.

ZIP X

Create an all year round outdoor living space

The Zip X offers privacy, effective shade, and protection from the elements. With sleek and compact color-matched cassette options that safeguard fabric and hardware, it boasts an elegant side channel and bottom rail design that ensures an unobstructed view without unsightly zips or side tapes. Engineered with smart technology, it delivers low maintenance and high durability, making it a reliable choice for any environment.

MAXIMUM RECOMMENDED DIMENSIONS:

5300mm width x 3000mm drop

FABRIC

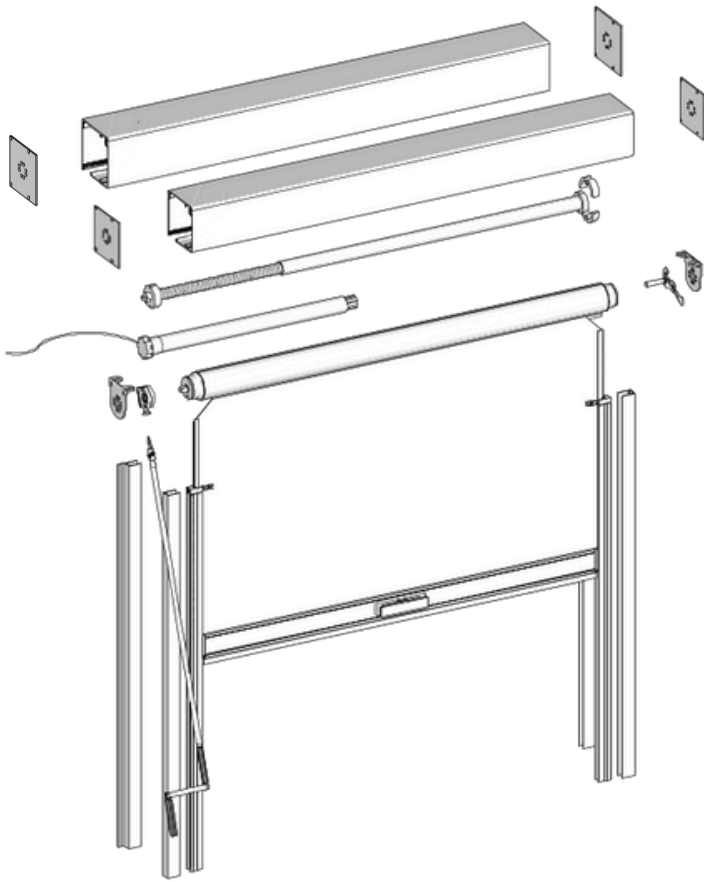

Select from a range of fabrics including Mode and Dayscreen screen fabric available in 17 colours in 5% openness factor, and 7 colours in 0% openness factor, which co-ordinate with Zip X Hardware colours.

OPTIONS

Manual operation via spring or gearbox. Motorised via remote control device, mobile phone or voice activation

All year-round protection from the elements.

Well-engineered bottom rail avoids bowing and deflection.

CHANNEL X

Designed to withstand harsh climate

The Channel X represents the pinnacle of wide span awnings, offering superior performance and design. Its wrinkle-free finish is a result of an ingeniously crafted bottom bar that securely locks into the channels, effectively adding tension to the fabric. This design not only enhances the appearance but also ensures durability. Additionally, the awning requires minimal maintenance and is supported by a manufacturer's warranty, providing both convenience and peace of mind.

OPERATION

- Select motorised or crank handle operation
- Choose an open style or with a cassette
- Customise with a hardware colour to compliment or contrast your external walls
- Lockable bottom bar

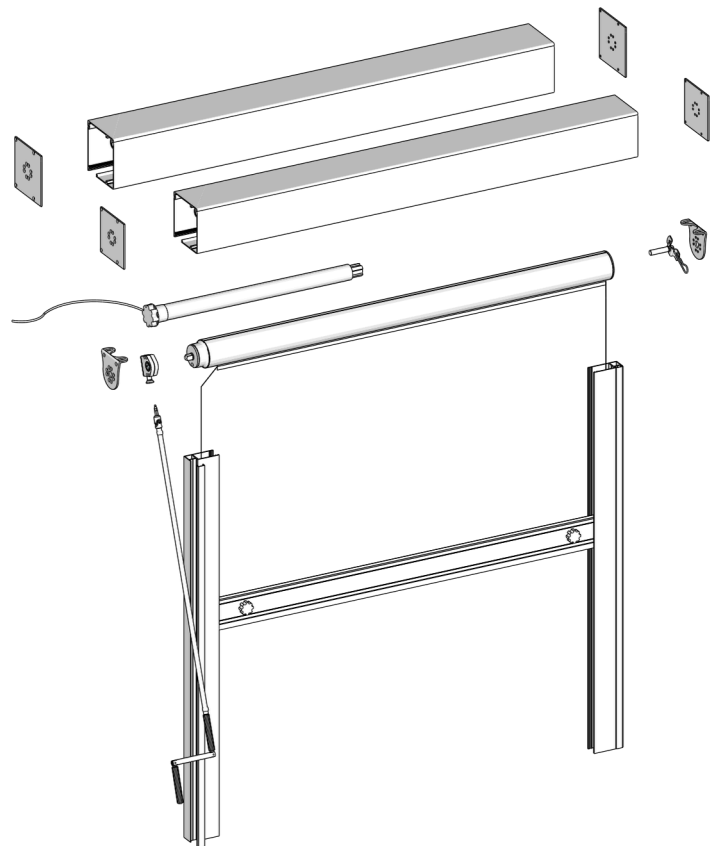

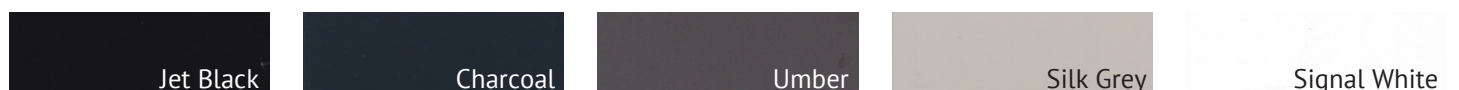

MAXIMUM RECOMMENDED DIMENSIONS

5100mm Width x 3000mm Drop

WIRE X

Designed to withstand harsh climate

Featuring a contemporary design with a minimalist edge, this awning integrates wire cables that ensure the bottom bar tracks flawlessly during operation. The high-quality stainless steel hardware used is specifically chosen for its durability and resistance, making it particularly well-suited for coastal areas.
